MISS RICE WILL GIVE A NOVEL PERFORMANCE

Popular Soloist will Sing in Comparison with the Famous New Edison

Is it possible for a singer to sing a duet with herself?

Can a living voice and the same voice re-created on an instrument be so identical in tone quality that they cannot be distinguished, one from the other?

Has science achieved a triumph that marks the dawn of a new day in the art of music?

These are some of the questions—questions in which every person of culture must take a deep interest—that will be answered at the recital to be given at the Temple theater, Friday afternoon at 4 o'clock. Invitations to this affair, at which Gladys Rice, the celebrated American concert soprano, will sing, have been received by many prominent musicians of this city, and interest in the coming affair seems to be keen in musical circles. The appearance of Miss Rice, of course, would be sufficient to arouse the enthusiasm of music lovers here, but the fact that she will lend her superb voice to the laudable work of revealing conclusively that the mar-

AN IMPORTANT LETTER

COLUMBUS, GA.—"Doctor Pierce's Golden Medical Discovery is certainly a grand medicine for stomach trouble. I have suffered greatly all my life with disordered stomach. My food seemed to get so heavy, no matter what I ate. I have taken many of the medicines advertised for this trouble but none of them has ever come up to 'Golden Medical Discovery' for giving prompt and lasting relief. Whenever I have a sluggish liver with sick-headache and constipation I have found that Dr. Pierce's Pleasant Pellets are a very efficient remedy. They do not gripe or cause any other distressing condition such as a great many pills do."—MRS. LAURA KIMBROUGH, 3503 Earlene Avenue.

Few families have not at some time or other used this Golden Medical Discovery. Over twenty-four million bottles have been sold in this country.

Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial package of the tablets.

velous achievement of the re-creation of musical sound has been attained, adds immeasurable interest to the occasion.

In the coming recital, Miss Rice will sing in comparison with her voice as re-created by the New Edison, to enable those in the audience to judge whether or not the living voice can be made to live forever. A superb program has been arranged—a program that will reveal all of the fascinating qualities of the glorious voice of the young soprano. At times her living voice will be heard alone; at times she will sing in unison with her re-created voice; at times she will sing duets with herself. The audience will try to pick the two golden threads of tone apart—to say which one lives for the moment and which one has been made immortal.

Cards of admittance may be secured from the Kelly-Miller Music Co., Harrington Hall corner, if you wish to hear this question answered.

OCALA TESTIMONY

The Expression of Many a Kidney Sufferer in Ocala

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Here's Ocala proof:

J. E. Allemand, proprietor of jewelry store, 23 Main St., Ocala, says: "Some time ago I wrenched my back while working in my garden and for some time following had a constant ache across the small of my back and in my hips. It was distressing for me to straighten up after I had sat in one position for any length of time. I began to use Doan's Kidney Pills and they surely proved their merit in a short time, for they caused every symptom of this trouble to disappear. I take a few of Doan's occasionally to keep my kidneys in good order."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Allemand had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv. 63

The road to success is advertising.

BLUEJACKETS BECOMING ACQUAINTED WITH MALTA

Malta is the largest of the Maltese Islands, situated between Europe and Africa in the central channel which connects the eastern and western basins of the Mediterranean sea. These islands belong to Great Britain, and the inhabitants are said to be direct descendants of the Phoenicians. The prosperity of the island depends upon the military forces which are based there and those who carry there at intervals. It is a base for the British Mediterranean fleet and it is seldom that men-of-war of many nationalities cannot be found in the harbor. The harbor is beautiful and adequate, though with the coming of the big steam vessels in the Mediterranean trade it was necessary to commence the construction of a large breakwater for needs of the future.

The people are devoted to agriculture, though there are few large farms, some 10,000 inhabitants holding farms of four acres and smaller, and they do not produce enough for their needs, importing a large percentage of their supplies. For this reason the money brought in by visitors and the military forces is necessary for the prosperity of the island, and in the absence of the British fleet for any long period the natives are apt to be in want.

In casting about, as is the usual custom, for souvenirs and goods to bring home, the American bluejackets buy large quantities of hand-made lace for which the island is noted.

During the Spanish war, hundreds of our men stopped at Malta, which was a port of call for our transports

en route to Manila, and again in the great war our sailors on duty in the Mediterranean found Malta a haven of rest and recreation.

In the upper picture we see an American bluejacket standing by the fountain in the beautiful Irish gardens, and below the U. S. S. Chester in the harbor of Malta.

Malta is of extreme military importance to anyone wishing to hold power in the Mediterranean, and like Gibraltar, the British have the island strongly fortified and keep a large garrison there at all times.

There are many points of interest in the Mediterranean of which Malta is not the least, and one is indeed fortunate to be able to visit these places, seeing the people and studying their customs, in the land where East
